

# Paul Sippl

*1. Where are you currently employed and what is your occupation?*

I have been employed at U.S. Oil Co., Inc. since 1984. My current title is Vice President – Contracted Fuel Supply. I am on the Senior Leadership Committee, reporting to the President/CEO. My background is that of a CPA, holding various positions within the company, including Controller of the Petroleum Operations division and Manager of the Express retail division.

*2. In what capacity have you previously served for a credit union?*

In 23 years serving this organization, I served on various committees. I have also been Chairman of this Board for a significant portion of this time. At this time, I serve on the Asset/Liability Committee and our recently formed Business Lending review committee. I enjoy the challenges of these two committee positions, and believe I provide value in addressing the complexities of these functions.

*3. How do you feel you can contribute to our credit union and its Board of Directors?*

I feel the need for experienced and educated board members is greater than ever, considering the challenges within the economy today. I feel with my background and current position in business, I can provide insight, challenge our strategies, and assist the management team on the issues we face.
